SUMMARY

Backend Developer with hands-on experience building server-side applications, managing databases, and integrating APIs using Node.js and Express. Completed a 10-month internship delivering real-world backend solutions. Passionate about continuous learning, with additional exposure to Machine Learning, Data Analytics, and full-stack development.

SKILLS

Node.js | Express.js | JavaScript | REST API Development | MongoDB | Python | Git | React | TypeScript | Socket.IO | SQL

EXPERIENCE

Backend Developer Intern — DevERP Solutions Pvt. Ltd. Jun 2025 – Apr 2026
Ahmedabad, India

- Developed and maintained server-side applications using Node.js and Express, improving API response reliability.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic seamlessly.
- Managed MongoDB databases, designing efficient schemas for optimized data storage and retrieval.
- Participated in code reviews and followed best practices to ensure code quality and maintainability.
- Kept up to date with industry trends through self-directed learning and advanced training.

PROJECTS

Cohort — Real-Time Community Engagement Platform
Full-stack platform for Indian users with scheduled messaging, event management, community groups, 24-hour stories, and AI-powered Indian language translation (Gemini API). Built with Node.js, Express, React, MongoDB, and Socket.IO. Final year project in collaboration with DevERP Solutions.

4mdavad — Hyperlocal Geo-Community Web App
City-focused platform for Ahmedabad connecting residents, creators, and businesses via a city feed, event discovery, and interactive maps. Built with React, TypeScript, Supabase, and Leaflet for a city of 8 million people.

Chess Online — Multiplayer Chess Platform
Real-time online chess platform enabling matches with random players using WebSocket-based communication.
